

# PRODUCTIVE LANDSCAPE AND TERRITORIAL ECONOMIC DEVELOPMENT

## SEMINTEC 2014 COLOMBIA

The International Network for Research on Territory and Culture RETEC and the *Territorialities Research Group* at the University of Caldas (Colombia) organize the XIII [International Seminar SEMINTEC 2014 on Territory and Culture](#)

The seminar will take place in the city of Salamina, Caldas (Colombia), from 3 to 6 November 2014.

The seminar is carried out through the [following workshops](#):

- New Methods of Complexity for the Study of the Landscape and Territorial Economic Development. University of Buenos Aires.
- Methodological Approaches for Urban Public Action. University of Caldas. Territorialities Research Group.
- Use of Coremas for Territorial Research. ILPES-CEPAL.
- Social appropriation of heritage in the Cultural Coffee Landscape. Community workshops. University of Caldas.

The Seminar has academic support by the French Institute of Urbanism that collaborates with the University of Caldas for the implementation of a [Doctorate in Territorialities](#).

The organizers of the Seminar are inviting academic and non - academic speakers for papers and presentations about the different topics of the workshops.

Environmental protection and landscape enhancement are crucial issues so as to ensure sustainable territorial development. Such a seminar, promoted in various mass media, represents an important example of the support that universities can offer in cooperation with local actors in order to contribute to quality development.
