

EUBCE 2017 – 25th EDITION OF THE EUROPEAN BIOMASS CONFERENCE AND EXHIBITION

The [EUBCE 2017 - 25th European Biomass Conference and Exhibition](#), will be held in Stockholm (Sweden) from 12 to 15 June 2017

The EUBCE Conference program is coordinated by the European Commission Joint Research Centre. The quality of the 2017 EUBCE program is ensured by the Scientific and Industry Committee comprising 140 international biomass experts.

EUBCE is the most important international conference for the biomass sector, combined with a technology exhibition. For more than 30 years, it has been serving as the annual meeting point for biomass experts from research, development and the industry. With presentations addressing the latest technologies, the policy framework, and the medium and long-term strategies and potentials, EUBCE is the interface between science, industry and policy makers.

The EUBCE will host an international Exhibition for companies and research labs to showcase their latest products and bringing scientists, technologists and key players together with leading Biomass industries and organizations.

At 2016 EUBCE more than 3,700 authors and co-authors from 80 countries around the world were involved in preparing abstracts for contributions. 780 keynote, plenary, oral and visual presentations were held during EUBCE.

The EUBCE 2017 program includes the following topics: Biomass resources; Biomass conversion Technologies for heating, cooling and electricity; Biomass Conversion Technologies for Fuels, Chemicals and materials; Biomass Policies. Markets and sustainability; Bioenergy in integrated energy systems; Industry session.

For the EUBCE 2017 conference [960 abstracts have been received from 78 countries](#).
