

# MATCHMAKING EVENT IN OSLO TO FIND PROJECT PARTNERS FOR FUTURE HORIZON2020 CALLS WITHIN THE CIRCULAR ECONOMY

The brokerage event [\*HORIZON 2020: opportunities in the circular economy Reducing, Reusing and Recycling\*](#) will take place on 19 September 2017, in Oslo, Norway.

The event is organized by [Innovation Norway](#) and the Research Council of Norway, within the framework of the [Europe Enterprise Network \(EEN\)](#), with the support of [NCPS-CARE.EU](#) network of National Contact Points for Climate Action, Resource Efficiency and Raw Materials.

The main target group for the event are European businesses and research entities looking for partners in innovation and R&D activities developing new business models and value chains within the area of circular economy in Horizon 2020.

The conference addresses the following topics: Waste - recycling, reuse and recovery; water and wastewater treatment and alternative sources and efficient use of energy and materials (bio-energy and bio-fuel, bio-plastics).

The brokerage event addresses collaboration in the following fields: Reducing material and resource inputs; Maintaining the value of products, materials and resources for as long as possible; Minimizing the generation of waste; Replacing non-renewable resources with biomass; Protecting oceans and land from waste and litter by remediating existing concentrates, mitigating new pollution and developing; biodegradable bio plastics; R&D, new business models and value chains.

This one-day event will present latest policy news and introduce relevant forthcoming calls for proposals in the Horizon 2020 program which covers the period 2014-2020. There will also be presentations of case studies from successful Horizon 2020 projects.

124 participants from Belgium, Bulgaria, Denmark, France, Germany, Ireland, Italy, Latvia, Lithuania, Norway, Poland, Romania, Spain, Turkey and United Kingdom have already ensured their presence.

The timing of the event is relevant to prepare for the coming calls in the field of the circular economy. The matchmaking event will be a great opportunity to find new international partners and develop new project ideas for future H2020 collaboration. Participation is free of charge. The registration for the event is open until 11 September 2017
