

LAUNCHED THE 2018 EDITION OF THE ENERGY GLOBE AWARD

[Energy Globe has launched its 2018 Award](#). The objective of the Energy Globe Award is to present successful sustainable projects to a global audience and to demonstrate that for many environmental problems feasible solutions already exist. Projects submitted from over 170 countries take part each year in the awards.

Eligible for participation are projects with a focus on saving resources, improving air, soil, or water quality, increasing energy efficiency, using renewables, as well as anyone making a contribution towards the fight against climate change.

Projects can be entered by individuals as well as companies, organizations, and public authorities. Several projects may be entered by a single competitor. Entry is free of charge.

The Energy Globe website presents [the winners of the 2017 Award](#). The winners are managing innovative practices that could be of interest for other territories and local development actors.
