

## THE WINNERS OF THE 2016 ENERGY GLOBE AWARD

In November 2016 the Winners of the [Energy Globe Award](#) have been celebrated in a ceremony at the UN Climate Change Conference in Marrakesh. The announcement of the category winners was transmitted to all viewers on-site and online. A lot of participants of the conference came to the Energy Globe to find out more about the projects. The interest about the nominated environmental projects was huge.

Out of 2.000 submissions the international jury selected 17 projects, coming from Bangladesh, Honduras, Morocco, Germany, Ethiopia, Malaysia, Mexico, Austria, United States, India, Norway and Tanzania.

The international jury consists of famous persons engaging in the environmental protection and the chairperson is the former Indian Minister for Environment, current Minister for Women & Child Development Maneka Gandhi.

The Energy Globe website presents the [winners of the 2016 Award](#) in the following different categories: Earth, Fire, Water, Air and Sustainable Plastics. The winners are managing innovative practices that could be of interest for other territories and local development actors.
