

THE 15th PAN-AMERICAN DAIRY CONGRESS ORGANIZED BY FEPALE IN ARGENTINA

The [Pan American Dairy Federation FEPALE](#) organizes the [15th Pan-American Dairy Congress](#). The appointment will take place in Buenos Aires, at the Trade Fair of *La Rural* from September 11 to September 13, 2018.

The Congress is organized in close collaboration with the World Organization for Animal Health (OIE), the Inter-American Institute for Cooperation on Agriculture (IICA) and the International Dairy Federation (FIL/IDF).

The main themes of the event include, among others: Global macroeconomic trends in trade and consumption of agro-food; International dairy market; International orientations and priorities on Research and Innovation; Good antibiotic use practices; Successful actions to promote dairy consumption; Services of the dairy chain to society; Keys to competitiveness in milk production systems; Profile of dairy export companies; Keys to success in international competitiveness.

The event is addressed to a qualified public directly linked to the sector: milk producers, technicians in primary production, technicians of the processing industries, suppliers, senior executives and directors of the dairy industries, directors and union leaders (producer and/or industries organizations) researchers, government representatives, students, specialized press. The Organization of the 15th Congress expects to receive more than 1,000 participants from about 30 countries.

In parallel there will be an Industrial and Commercial Fair, in which important companies from different countries will participate and present innovative equipment and supplies for the sector.

The Congress aims to update knowledge and is an important opportunity for the presentation of works and research related to the dairy world and of interest for the companies supplying the productive chain.

The Organizing Committee of the 15th Pan American Dairy Congress invites researchers, professionals, students, entrepreneurs, involved with the Milk Sector to present research and dissemination works in the Congress on the following

themes: Primary Production; Industrialization of Dairy Products; Economy and Market of Milk and Dairy Products and More Milk = More health.

The deadline for sending the scientific articles for approval, is July 31, 2018.
