

festival du futur composé

Culture, art and changes in mental health practices

In the framework of the 2011 Festival, the *Futur Composé* Association organized in Paris a symposium to enhance the human, intellectual and scientific contribution of Lucien Bonafé and Franco Basaglia, two men who determined the transformation of psychiatric institutions in France and Italy, with the structural support of culture and art world. At the symposium, the participation of high level representatives of the psychiatry and art world from different countries is expected. [Program Link](#).

The Festival, organized from 21 to 24 September, with the support of the Municipality of Paris, the *Ile de France* Region and the *Réunica Prévoyance* Foundation, encompasses experiences of France, Belgium, Italy, Portugal, Spain and Croatia. The Festival is articulated through performances and art events (theater, exhibitions, music, films) produced in those countries with the active participation of people with mental health problems.
