

Virtual Library of the Biodigesters Network for Latin America and the Caribbean

The RedBioLAC has launched in its new website (www.redbiolac.org), a virtual library containing manuals, documents and materials on biodigesters and a directory of manufacturers, installers, researchers, NGOs, etc. The library is divided into the areas of diffusion, manuals, applications, research, academic theses, project reports, company reports. It is constantly updated incorporating new documents also suggested by the participants of the RedBioLAC mailing list ([information list](#)).

The Network has also created a forum to discuss, learn, post articles, and receive news of events and courses about biodigesters.
