

festival du futur composé

The results of the *Futur Composé* Festival - Culture, art and changes in mental health practices

From 21 to 24 September, in the framework of the 2011 Festival, the *Futur Composé* Association organized in Paris with the support of the Municipality of Paris, the *Ile de France* Region and the *Réunica Prévoyance* Foundation, a symposium to enhance the human, intellectual and scientific contribution of Lucien Bonafé and Franco Basaglia, two men who determined the transformation of psychiatric institutions in France and Italy, with the structural support of culture and art world.

During the Festival, which involved experiences of France, Belgium, Italy, Portugal, Spain and Croatia, performances and art events have been presented (theater, exhibitions, music, films) produced in these countries with the active participation of people with mental health problems.
