

## Multi-level Agricultural Towers new website

**Courtirey** Company, promoter of the innovation [Agricultural Towers for multi-level cultivation](#), released a new edition of its website in English, French and Spanish. In the different sections of the website the innovation presentation in three languages can be found, besides updated technical information on the Agricultural Towers, information on new public exhibitions and recent awards. Moreover, videos on TV and radio interviews to [Jean-Claude Rey](#), author of the innovation, have been published in the website's multimedia section.

Several projects are being implemented in France, Japan, Burkina Faso and Gulf Countries.
