

# INNOVATIVE SOLUTIONS PRESENTED AT THE UNITED NATIONS SOLUTIONS SUMMIT 2018

In September 2018 the third edition of the [UN Solutions Summit](#) has been celebrated at United Nations Headquarters in New York during UN General Assembly week. The first Solutions Summit in 2015 immediately followed the adoption of the SDGs by all UN Member States.

Solutions Summit is an annual catalytic gathering that lifts up and advances the work of exceptional teams already developing innovative solutions that address the [Sustainable Development Goals \(SDGs\)](#)

During the Solutions Summit, the selected global innovators give a 'lightning talk' outlining their breakthrough efforts to an audience of policymakers, investors, industry leaders, fellow entrepreneurs and members of the general public, including youth, who bring additional creative insight. This special event involves in-person accelerator sessions and social media interaction with the selected solution-makers.

For the Solutions Summit 2018 the organizers received more than 1000 applications and selected the following final 10 solutions:

- [aQysta Barsha Pump](#)
- [Beacon of Hope UAE](#)
- [BeeLine Reader](#)
- [D-Kimia Innovative Diagnostic Solutions](#)
- [Cyber Harassment Helpline](#)
- [GIResilience Project](#)
- [Logistimo](#)
- [Powerstove](#)
- [Recode](#)
- [SEAB Energy - Flexibuster & Muckbuster](#)

On the website information on the finalists of the three previous editions is also available. The organizers report that the UN Solutions Summit shows that people already have extraordinary solutions advancing towards most complex challenges. The Summit serves as a catalyst to convene resources and talent around solution-makers.
