

INNOVATIVE TECHNICAL SOLUTIONS

AWARDED IN 2016 BY THE SIEMENS STIFTUNG FOUNDATION

The 23 winners of the [Empowering People Award organized in 2016 by the Siemens Stiftung Foundation](#) were honored at an Award Ceremony on October 6 in Berlin (Germany). Over 800 entries from 88 countries were entered to the competition. This global award recognize innovative low-tech solutions that sustainably help improve lives in developing countries.

The [innovative solutions awarded in 2016](#) are presented in the Empowering People Network website.

The Award is one of the activities of the Siemens Stiftung Foundation. All winners are invited to join the [Empowering People Network](#) aiming to foster innovative technology to solve problems in basic supply around the globe. In particular, the Empowering People Network connects inventors and entrepreneurs from around the world who work on technical solutions that are implemented using entrepreneurial models to improve basic services in developing regions. To support these promising solutions, the network aims to transfer knowledge and spread the word to potential supporters and users to effect better basic services for more people.

The [Siemens Stiftung Foundation](#) is a non-profit organization that promotes sustainable social development. In collaboration with its partners the Foundation develops and implements solutions and programs to support this effort, with technological and social innovation playing a central role.

In the Empowering People Network website [information about a wide range of innovative technologies](#) in the fields of water and waste water, water management and recycling, energy, food and agriculture, housing and construction is available.
