

# THE EARTHSHOT PRIZE ANNOUNCES THE FINALISTS FOR THE 2022 EDITION

In November 2022, the [Earthshot Prize announced the fifteen Finalists for the edition 2022](#), a group of entrepreneurs and innovators spearheading their solutions to the biggest environmental challenges the planet faces.

[The EarthShot Prize aims to find new solutions that work at every level of application](#), have a positive effect on environmental change and improve living standards globally, particularly for communities who are most at risk from climate change. [The Prize is centered around five Earthshots](#), ambitious goals for the planet which, if achieved by 2030, will improve life for all and for generations to come.

Waiting to know the five winners of this important Prize, the website presents each of the finalists through extensive information to publicize their extraordinary innovative solutions.

- *Protect and Restore Nature*

[Desert Agricultural Transformation](#), China: A team developing cutting-edge agricultural breakthroughs to turn barren desert landscapes into lush, green ones.

[Hutan](#), Malaysia: An inspiring conservation model that protects orangutans, supports local jobs and livelihoods and restores forests to their former greatness.

[Kheyti](#), India: A pioneering solution for local smallholder farmers to reduce costs, increase yields and protect livelihoods in a country on the frontlines of climate change.

- *Clean Our Air*

[The Ampd Energizer](#), Hong Kong: An emission-free electric battery system to power construction and reduce pollution.

[Mukuru Clean Stoves](#), Kenya: A start-up providing cleaner-burning stoves to women in Kenya to reduce unhealthy indoor pollution and provide a safer way to cook.

[Roam](#), Kenya: An organization building lower emission vehicles, making clean transportation accessible and affordable for urban cities on the African continent.

- *Revive Our Oceans*

[The Great Bubble Barrier](#), Netherlands: Inventive and ingenious technique to intercept plastics before they reach oceans by creating a curtain of bubbles.

[Indigenous Women of the Great Barrier Reef](#), Australia: An inspiring women-led programme that combines 60,000 years of indigenous knowledge with digital technologies to protect land and sea.

[SeaForester](#), Portugal: A truly cutting-edge breakthrough in seaweed farming that can restore the ocean's forgotten forests.

- *Build A Waste-Free World*

[City of Amsterdam Circular Economy](#), Netherlands: A city-wide initiative to establish a fully circular economy by 2050, wasting nothing and recycling everything.

[Fleather](#), India: An innovative and regenerative approach to creating leather out of floral waste.

[Notpla](#), United Kingdom: A circular solution creating an alternative to plastic packaging from seaweed.

- *Fix Our Climate*

[LanzaTech](#), USA: A circular solution that recycles carbon waste into sustainable fuels and everyday products.

[Low Carbon Materials](#), United Kingdom: A new and innovative material that uses unrecyclable plastic waste to make traditional concrete blocks carbon zero.

[44.01](#), Oman: An innovative technique to turn CO2 into rock, and permanently store it underground.

With over 1,000 nominations from around the world, the fifteen Finalists were selected by the Earthshot Prize Council and were chosen for their ground-breaking solutions to the greatest environmental challenges facing our planet and their ability to scale their impact globally in response to the urgent challenges.

The five Winners selected from these Finalists will receive £1million British pounds prize money and access to a global network of professional and technical support to scale their cutting-edge environmental solutions. The 2022 Earthshot Prize awards ceremony will take place on December 2 at the MGM Music Hall in Boston (United States).

[The EarthShot Prize has been launched by Prince William and the Royal Foundation of The Duke and Duchess of Cambridge \(United Kingdom\)](#) with the support of the [Global Alliance](#), a network of non-profit international organizations committed to the environment and sustainable development, which share the ambition of the Prize to incentivize change. The Prize is also supported by the [Earthshot Council](#), a global team of influential individuals from a wide range of different sectors, all committed to championing positive action in the environmental space.
