

## WINNERS OF THE 2022 INTERNATIONAL BAMBOO AND RATTAN PHOTO COMPETITION ORGANIZED BY INBAR

The [INBAR International Bamboo and Rattan Photo Competition 2022](#) announced the seven winners selected from 200 wonderful images coming from 22 countries around the world. The judges also commended 10 talented artists' entries.

A panel of expert photographers selected the images which best reflected the uses of bamboo and rattan uses for sustainable development, particularly across [INBAR's key focus areas](#).

[The winners of the 2022 competition](#) are the following photos coming from Myanmar, Indonesia, China and India:

- First place. The Best of Bamboo. *Bamboo Scaffolding* by Kyaw Zay Yar Lin from Myanmar
- First place. The Best of Rattan. *Rattan Basket for Durians* by Muhammad Syarif. S from Indonesia
- Second place. *Bamboo in Cow Races* also by Muhammad Syarif. S from Indonesia
- Second place. *City Spiders* by Wong Chi Keung from Hong Kong, China
- Third place. *Rattan Collectors* by Pyi Soe Tun from Myanmar
- Third place. *Sandur kalongking folk show* by Wahyu Budiyanto from Indonesia
- Third place. *Sustainable Fishing* by Sujan Sarkar from India

The Competition is part of the INBAR work of promoting the use of these fantastic plants for sustainable development across continents. Whether it be strengthening rural livelihoods, preventing deforestation, storing carbon or creating low-carbon infrastructure, the potential of bamboo and rattan is enormous.

As pointed out by INBAR, these photographers with their extraordinary images make a great contribution to spreading the message about the importance of bamboo and rattan for sustainable development around the world.

The winners of the [2020](#) and [2021](#) editions of the Competition are also presented on the INBAR website.
