

ORGANIC FARMING INNOVATION AWARD 2020

CALL FOR APPLICATIONS

Every three years, [IFOAM Organics International](#), the South Korean [Rural Development Administration](#), and [IFOAM's Technology Innovation Platform](#) join together to honor the most outstanding organic innovators with the [Organic Farming Innovation Award \(OFIA\)](#). The Award call on the organic movement to bring attention to the excellent work of organic innovators around the world.

The application deadline is April 1st, 2020. OFIA applications may be submitted in English, French, German, Spanish, Mandarin and Korean.

The overall goal of OFIA is to contribute to solving problems and exploring the potential to increase effectiveness, efficiency, and productivity of Organic farming, improve viability for the environment, plants, animals, and human beings. OFIA will highlight outstanding organic innovations among researchers, extension agents, and practitioners.

The award ceremony is taking place during the 20th edition of the [Organic World Congress \(OWC 2020\)](#) that will be held between September 21-27, 2020 in Rennes, France.

OFIA is awarded in two categories: Grand Prize and Science Prize. Winners will receive a monetary award (10,000 US\$ for Grand Prize and 5,000 US\$ for Science Prize) as well as travel, accommodation costs and free registration for the Organic World Congress, to showcase their work. This platform provides winners greater visibility and will help them spread their messages to a wider audience.

By highlighting the innovations through OFIA, the global organic community emphasizes the key role innovations play in accelerating the adoption of organic agriculture worldwide.
