

VIRTUAL INTERNATIONAL MEETING 2020 OF THE RedBioLAC BIODIGESTERS NETWORK

The [RedBioLAC Biodigesters Network for Latin America and the Caribbean](#) invites to participate in its International Meeting that takes place every year and that in 2020 will be virtual.

The 2020 Meeting will be an online event with the participation of experts, collaborators of the Network and professionals interested in biodigestion and related topics. The Meeting will take place from October 6 to 8, 2020.

The Virtual Meeting Program foresees that each of the three days will be developed in two activities:

- a thematic roundtable in which experts will discuss important issues for the promotion of biodigesters;
- a space in which the authors of the RedBioLAC magazine technical articles and case studies, as well as members of the network working groups, will share their experiences and research.

In particular, the following thematic roundtables and technical presentations will be held:

1. *National biodigester plans, strengths and weaknesses for their implementation in Latin America and the Caribbean.* Moderator: Jaime Martí. Ecuador.
2. *Role of biodigesters in rural development and family farming.* Moderator: Lylian Rodriguez. Colombia.
3. *Circular economy and the importance of anaerobic digestion.* Moderator: Ricardo Steinmetz. Brazil.

RedBioLAC is a network that brings together institutions and organizations related to applied research and dissemination of anaerobic biodigestion, to stimulate the integral treatment and management of organic waste, as strategies to improve the well-being of the population of Latin America and the Caribbean. The RedBioLAC website will continue to report on the 2020 Virtual Meeting program.
