

OPEN CALL FOR SDG GOOD PRACTICES AND SUCCESS STORIES IN THE IMPLEMENTATION OF THE 2030 AGENDA

[An open call for SDG good practices](#), success stories and lessons learned in the implementation of 2030 Agenda has been launched by the UN Department of Economic and Social Affairs (UN DESA). The purpose of this call is to highlight examples of good practices, including those that could be replicated or scaled-up by others across the globe.

[Submissions can be made in English, Spanish or French and registered before 28th February 2021.](#)

The UN DESA website highlights that in the five years since the 2030 Agenda and the Sustainable Development Goals (SDG) were adopted in 2015, many governments, UN entities, international and regional organizations and stakeholders have gained in-depth knowledge and expertise and taken innovative steps towards implementing this ambitious global framework. Many inspiring breakthroughs and success stories are showing results and impacts all over the world, and several good practices can be replicated and scaled up to address existing gaps and constraints. Bringing this global expertise to scale will be critical to support recovery efforts from the COVID-19 pandemic and to accelerate progress towards the Decade of Action to deliver the SDGs.

The good practice should be: SDG-specific; Results-focused; Inclusive; Accountable, sustainable and replicable. Submissions will be reviewed by an Inter-Agency Team of experts from 24 UN Entities. The approved good practices will join the network of over 500 projects from every country of the world, already featured in [UN DESA's database](#).

In 2020 UN DESA also published the first edition of the digital book [SDG Good Practices - A compilation of success stories and lessons learned in SDG implementation](#). The publication presents 16 SDG Good Practices from across the globe, received in response to the first open call promoted by UN DESA between 2018 and 2019. Sorted by geographical region, this publication describes the diverse examples in detail, featuring updates and reflections on the impact and adaptations to the COVID-19 pandemic and showcasing results and impact.
